Foreword

London will host the Olympic Games between 27 July and 12 August 2012 and the Paralympic Games between 29 August and 9 September 2012. The city will be welcoming hundreds of thousands of visitors from around the world to enjoy and participate in the Games and surrounding events.

Most overseas visitors will arrive and depart on scheduled flights to one of the many well-connected airports in or around London. But others will wish to use private or chartered aircraft. This will present a challenge, in terms of both airport capacity on the ground and managing the airspace over South East England, which is already among the most crowded in the world.

To deal with this challenge the Government is proposing to introduce new measures to help control the flow of aircraft during the Games period. This will include the need for prior booking of arrival and departure slots at all airports and airfields in South East England: aircraft will not be permitted to operate without these. There will also be new airspace control measures in place, both for capacity and security reasons.

London's largest airports are already heavily used. Heathrow in particular will have no spare capacity to accommodate additional aircraft movements during the Games period. However, South East England is fortunate to be served by a wide range of other airports, both large and small, as this booklet illustrates.

All of the airports and airfields featured here are able and ready to take additional private and non-scheduled commercial flights during the Games period. They have been listed on the basis that they are within an approximate 120 minute journey to the main Games site at Stratford, either by rail or by road. The information they have supplied here is intended to provide an initial guide to what is available and where. Those wishing to operate non-scheduled flights during the Games period are encouraged to make use of the contacts supplied to confirm details and availability.

Early contact is recommended, especially for those who have particular needs or preferences as regards location, type of aircraft, or timings. Many operators are making their plans now. Slots at peak times are expected to be subject to heavy demand, and are likely to be fully subscribed well before the Games at many airports.

The airports in and around London look forward to welcoming you in 2012 – but please make your arrangements as early as possible to ensure that your needs can be met.

**UK Department for Transport
London
March 2011**

Notes

1. While the Department for Transport (DfT) and its partners and agents have made every effort to ensure the information in this document is correct, the accuracy, completeness or usefulness of that information cannot be guaranteed and no liability can be accepted for any loss or damages of any kind resulting from reliance on the information this document contains.
2. It should be noted that not all of the airports featured provide full Air Traffic Control services and some are outside the controlled airspace structure. Operators should contact the airport of their choice to ensure that their individual needs can be satisfied in this respect.
3. It should be noted that possibilities for helicopter transfer to and from Central London, as referred to in some entries, are likely to be limited during the Games period.

Biggin Hill ✈️

London Biggin Hill Airport is only one of three commercial airports within the Greater London Boundary and is exclusively for Business and General Aviation, situated just South of Bromley and 15 miles from Central London. The airport is a UK Border Agency Port of Entry with a choice of three full service Fixed Based Operators. The airport has a wide variety of services available from hangarage up to ACJ/BBJ's to maintenance on most aircraft types. The airport is ideally suited for those looking for an airport close to London with the ease of use and security that the business aviation customer desires with total discretion and the possibility to typically be in central London in 6 minutes using one of the airport based helicopters or by car in 45 mins to 1 hour.

(inc. 20 mins taxi to Ebbsfleet)

Local Facilities

- Trains, taxis and car hire
- Nearest Railway Stations: Orpington, Bromley South or Ebbsfleet International
- Hotels: Several within 5 miles

Birmingham ✈️

As the nearest 24-hour alternative to the major London airports, Birmingham can accommodate aircraft of all sizes, up to and including the A380.

Birmingham boasts all the facilities you would expect of a major airport and the capability and expertise to handle movements which require a specialist service. Having successfully dealt with a range of major events, including Head of State visits and Governmental conferences, you can be assured that Birmingham offers a service second-to-none.

On a daily basis we have companies specialising in mass passenger operations, as well as bespoke VIP movements. Even better, we're at the centre of the UK's road and rail network and located just over an hour from London by train.

To discuss how Birmingham can play a part in your London 2012 Olympic and Paralympic Games operation, call Andrew Davies on + 44 121 767 7073, or email Andrew.davies@birminghamairport.co.uk.

Bournemouth

Nearly £50 million has been spent recently on upgrading the airport's facilities. As well as a new terminal building, the runway has been resurfaced, apron space has doubled, new primary and secondary radar has been installed, and a new Cat 3 landing system has been introduced.

The airport is recognised as an area of aircraft engineering excellence, and is the base for a number of maintenance companies.

Bournemouth has an excellent weather record, and there is significant parking space available for all types of general aviation, as well as executive jets and aircraft up to Boeing 767's.

Bournemouth is one of the few UK airports to offer an in-flight catering service which regularly provides a top quality service for commercial and executive aircraft.

The airport's excellent facilities, good weather and operational flexibility as well as proximity to the Olympic and Paralympic sailing venue at Weymouth and Portland, means that Bournemouth will prove a popular location during the London 2012 Olympic and Paralympic Games, so early booking is strongly recommended.

Bristol ✈️

Bristol Airport is South West England's major airport. In addition to over 100 direct services, multiple-daily flights from major hubs such as Paris Charles de Gaulle, Brussels and Amsterdam make Bristol accessible from hundreds more airports across the globe.

Located just eight miles from Bristol city centre, the UK road and rail network is easily accessible for onward travel. The airport's compact site layout makes for a friendly and efficient passenger experience, whether arriving or departing.

Recent investment totalling £12 million has focused on improving the passenger journey. Plans to develop and enhance the airport will bring new routes and services introduced alongside further investment in passenger facilities.

Bristol Filton ✈️

Filton has been involved in aviation since 1910 and is the birthplace of many projects such as the Bristol Freighter, Bristol Fighter, the Britannia and Concorde.

Today the airport is used extensively by general aviation, emergency air services, corporate air traffic and executive business aircraft.

Filton has 4 aprons, a dedicated helipad and hangarage and can offer a wide range of services to customers seeking to operate from an airport ideally located and amply equipped to serve the South West of England and Wales.

Situated just 5 miles/8km North of central Bristol, Filton is close to motorway and rail networks giving easy and quick access to the North, South, East or West (London is only 1.5 hours away).

The runway is 2467 metres (8093 ft) long and can accommodate aircraft up to B747/A380 (limited handling). ATC can provide radar and procedural approach services.

Cambridge ✈️

Marshall Airport Cambridge UK is a privately owned airport, located on 438 acres of airfield with 24/7 capability and 1965m/6447ft runway. Located close to the world-renowned City of Cambridge and only 14 miles from Newmarket the historical home of horse racing. Approximately 60 miles Northeast of London it is well placed to serve the UK's capital as well as being a gateway to the East of England and beyond. The airport holds a Public Use Licence and can accept the operation of public transport aircraft up to Boeing 757 or Airbus A320 size and is suitable for European short-haul operations and intercontinental business jets.

The airport also provides complete convenience and comfort through the Marshall Business Aviation centre, a state of the art Fixed Base Operation (FBO), a dedicated executive charter fleet, and a hassle free Visit Management service to cater for onward destinations or requirements.

Cotswold Airport (Kemble) ✈️

Cotswold Airport (Kemble) is situated seven miles to the South West of the old Roman town of Cirencester and is accessed by road off the A433. The nearest railway station is Kemble which has a direct rail link to London Paddington station. The main runway is capable of accepting aircraft up to Boeing 747-200/400 aircraft as well as most corporate jets and there is ample parking for both short and long term. A helicopter shuttle service may be available to London and the transit time is around 40 minutes.

Please view our website www.cotswoldairport.com for further information.

Coventry ✈️

Coventry Airport is a Patriot Aerospace company, a leading general aviation specialist in Britain. Big enough to cater for regular scheduled flights up to Boeing 757 size, but small enough to offer a bespoke and personal service, Coventry Airport is ready for your London 2012 Olympic and Paralympic Games aviation needs. With a 2000m runway, Cat I ILS and full AGL, Coventry is a well-equipped airport committed to providing a high quality service with fast processing times. Situated at the centre of the UK, close to all the major motorway networks, Coventry is one of Britain's most accessible airports. London is just two hours away by car, 90 minutes by rail and 35 minutes by helicopter transfer making it the perfect alternative option for your Olympic visit. Coventry is a co-host city with the City of Coventry Stadium being one of the venues for Football during the London 2012 Olympic Games.

* As this airfield is within the London CTR, the airport should be contacted in advance for a full arrivals briefing.

East Midlands ✈️

East Midlands Airport is conveniently located in the centre of the UK, between the cities of Nottingham, Derby and Leicester. It handles over 4 million passengers each year and serves over 90 destinations. It is the UK's largest freight airport, second only to Heathrow in the volume handled.

The airport is situated next to the M1 motorway and adjacent to East Midlands Parkway rail station from where London can be reached in under two hours.

Open 24 hours daily with no runway or airspace restrictions, East Midlands can handle a wide variety of aircraft types, from executive jets up to and including the Boeing 747 and Antonov AN-225.

Three aircraft aprons provide over 300,000 sq. metres of aircraft parking space and four fixed base operators provide dedicated handling for VIP and executive movements.

Location, capability, facilities and competitive pricing make East Midlands an attractive gateway for the London 2012 Olympic and Paralympic Games.

- Hotels: 4 on the airport site, 3 within 2 miles

Fairoaks ✈️

Located in the Surrey “Green Belt” less than 4 miles from the M25, 5 miles from the M3 and 5 miles from Woking station makes Fairoaks Airport an ideal destination for aeroplane and helicopter operators who wish to visit any of the Olympic and Paralympic Games venues situated in or around London. Journey times from Woking station to Waterloo in London are typically 25 minutes.

Fairoaks can accommodate aircraft such as the Beech King Air and Pilatus PC12 and can accept flights from both within the United Kingdom and beyond with the minimum of formalities. Arrangements can be made for vehicles to drive up to aircraft which enables passengers to transfer baggage between vehicles and aircraft with the minimum of fuss and also ensures that transit time between vehicles and aircraft is often less than 5 minutes.

Fairoaks is open between 7am and 5pm (from 8am on Sundays) but by prior arrangement can accept aircraft between 6am and 9pm 7 days a week.

London Ashford (Lydd) ✈️

Lydd Airport in Kent is conveniently placed to welcome visitors to the London 2012 Olympic and Paralympic Games, with the high-speed rail journey from nearby Ashford International Station just 31 minutes to Stratford International station adjacent to the Olympic Park and helicopter transfer to London typically taking 35 minutes.

Situated just outside the London TMA, flying into Lydd from Continental Europe is easy and unrestricted. The airport's 1505m runway is well served by ILS, GPS and NDB. Together with RFF category 6 availability and full terminal services including Customs/Immigration/Control Authorities, we can cater for a wide range of aircraft operations from public transport (up to 80 pax) and executive jets to private light aircraft and helicopters.

Plenty of parking is available with approximately 18 acres of tarmac apron plus grass parking, all at attractive landing and parking fees.

Stay in the excellent local hotels in Kent or East Sussex and explore historic English towns or the beautiful countryside to complete the experience.

London City ✈️

London City Airport's Jet Centre is the only corporate aviation facility in London. Located just 3 miles from Canary Wharf and six miles from the City of London, the Jet Centre is easily accessible, and is undoubtedly the first choice for corporate aviation.

The experienced team provides a complete corporate aviation package, including flight planning, weather briefings and landing clearances, slot requests, ground handling, flight watch, cleaning, catering, line maintenance, refuelling, baggage and aircraft handling.

With over 8 years of proven experience, and a dedicated 2 minute check-in time, the Jet Centre offers a premium service with VIP lounges, dedicated VIP stands, aircraft parking, immigration and customs, plus outstanding crew facilities.

Continued investment in both facilities and services reinforces our commitment to our customers and to corporate aviation.

London Gatwick ✈️

London Gatwick Airport is the UK's second largest airport. We welcome around 33 million passengers a year, flying with 70 airlines to more than 220 destinations in 90 countries.

We are actively building an enthusiastic customer base that chooses Gatwick for its warm welcome, ease of use, accessibility, reliability and exemplary service.

We are situated 28 miles South of Central London and benefit from rapid rail, coach and motorway links across the UK.

The non-stop Gatwick Express rail service runs every 15 minutes to and from London Victoria and takes half an hour. Journey times average around 30 minutes to London Bridge, and around 45 minutes to St Pancras International, with its fast links to Stratford International Station and the Olympic Park.

To find out more, visit our web site www.gatwickairport.com or email us at airlines@gatwickairport.com.

London Luton ✈️

London Luton Airport is one of the UK's largest airports carrying over 9 million passengers in 2009. Located just 50km from Central London with a rail journey time from just 21 minutes the airport is a major economic driver for the region, as well as a major base for 'low cost' or 'no frills' air travel and private aviation.

Easily reached by road or rail, with short check in to gate distances, Priority Lane through to security and contemporary, stylish retail and catering and Executive Lounges, London Luton Airport is ideally suited to serve the London passenger market. The airport also operates a 25,000 sq.ft cargo facility with dedicated cargo apron stands and hosts three on site Private Aviation operators.

Operational 24 hours each day/year round with over 100,000 aircraft movements per annum, London Luton Airport can serve all market sectors and is ready to welcome your business.

London Oxford ✈️

Oxford continues to evolve as a thriving London option for business aviation users and operators with ongoing investment in the facilities and infrastructure. Some £20m has been invested in the last five years with hangarage increasing by 80%, construction of a new main runway, installation of an instrument landing system and an award-winning FBO. With the same runway length as London City Airport, longer opening hours than its peers and enhancements such as Cat 6 RFF and pet importation approval, Oxford is just an hour from the West end of London and has attracted several engineering and charter operators with its lower costs and ease of access. Partially in readiness for the London 2012 Olympic and Paralympic Games, an additional 4.4 acres (1.8 hectares) of new parking area was constructed in 2010. At Oxford, business aviation enjoys all the benefits of VIP services at considerably lower costs than London alternatives. In recent years, regional airline operations have commenced from Oxford utilizing the exclusive executive business aviation handling facilities.

Manston Airport, Kent ✈️

Manston Airport, Kent is adjacent to London, just 64 miles East of the City. With a runway capable of handling all aircraft from private jets to fully laden 747s, Manston provides the largest available airport capacity within easy reach of the Games sites.

Our airport offers fast, efficient and congestion free processing of both aircraft and passengers alike, together with the ability to handle most types of cargo.

We have the flexibility to arrange exclusive access to most areas of the airfield, allowing ground transportation onto the tarmac, streamlining the arrivals and departures process.

All services are provided by our own staff allowing us to control and tailor all aspects of your airport experience. As a result we are able to adapt to any last minute changes, individual needs and requirements.

A high speed rail link from Ramsgate Station (located just 5 minutes taxi ride from the airport) connects the airport to Stratford International Station and the Olympic Park in just 1 hour 15 minutes.

Northampton/Sywell ✈️

Northampton/Sywell is a General Aviation aerodrome with origins dating back to 1928. Sywell is an all round package possessing all the requirements for various flying activities but also a full range of supporting facilities. An Aerodrome Café “The Pilots Mess” caters for the visiting pilot while there is also a Hotel “The Aviator” on site incorporating a bar, restaurant, and conference facilities with a large hangar also available for corporate or private venues capable of hosting up to 500 people. The Art Décor styling and friendly atmosphere attract various annual events including air racing and aerobatic championships and there is a highly acclaimed airshow held every two years. Flights can be had in microlights, hang-gliders, helicopters, balloons and modern or vintage fixed wing aircraft including Tiger Moths and a World War II Harvard.

Shoreham (Brighton City) ✈️

Shoreham Airport, which is the oldest licensed airfield in the UK and has a beautiful Grade II* listed art deco style Terminal Building, is at the forefront of general aviation in the UK, and a major base for flying activities on the South Coast. The City of Brighton and Hove and the town of Worthing are both within easy travelling distance from the airport and the Shoreham by Sea railway station provides the means to get you to Gatwick, London and beyond.

With its friendly stress-free atmosphere, Shoreham Airport offers all the requirements for modern aviation including executive and business travel as well as excellent conference and meeting facilities.

Southampton ✈️

Southampton Airport is ideally located for easy access to Olympic and Paralympic Games venues in London, Weymouth and Portland, Eton Dorney and training venues to the South and South West of London. The airport prides itself on its easy, fast and friendly nature meaning that passengers breeze through the facilities with ease. The airport also has a dedicated train station (Southampton Airport Parkway) providing fast direct access to London (66 minutes) and Weymouth (90 minutes). The airport is based at the junction of the M3 and M27 motorways, which also allow fast journeys by car and coach to Olympic and Paralympic Games venues. The airport is particularly appealing to time-conscious travellers and has capacity for special charters and executive jets. Passengers can also expect the highest levels of customer service as the airport has been voted by passengers as the most friendly airport in Europe for the past 2 years (Airports Council International Award (ACI)).

Southend ✈️

London Southend Airport is currently undergoing major development a key feature of which is a runway extension which will facilitate business jet operations comfortably as far as the West coast of the USA. Beyond this a new onsite railway station will give access to Stratford and the Olympic Park in 40 minutes by train and central London in 50 with over 120 services per day. Being direct and boasting first class this is very simple and a civilised way to travel to the Olympic Park .

Incumbent helicopter companies may be able to offer heli-transfers to London and further surface transport is available on two major dual carriageways, both providing access to the Stratford area.

A further developments includes a business aviation hangar development which will include maintenance operations.

Proximity to London & the Olympic Park (Indicative Travel Time)

Central London	By Road: 1 hr 5 mins
	By Public Transport: 50 mins (inc. 10 mins taxi to Farnborough Station)
Olympic Park (Stratford)	By Road: 1 hr 50 mins
	By Public Transport: 1 hrs 20 mins (inc. 10 mins taxi to Farnborough Station)

Local Facilities

- Taxis, car hire
- Nearest Railway Station: Farnborough Main
- Hotels: Aviator Hotel (5*) adjacent to the airport and several within 2 miles

Wycombe ✈️

Wycombe Air Park has been a civil aerodrome since the Royal Air Force vacated (RAF Booker) in the early 1950s. It is the home of five training organisations (notably the Airways Flying Club (formerly BEA/BOAC and then British Airways). There are engineering facilities for piston and turbo-prop aeroplanes, but limited hangarage is available as over 200 aircraft are based here. Additionally, the two based helicopter companies operate around 30 machines for training and charter.

Usual Fixed Base Operator (FBO) facilities available, along with full Air Traffic Control and Rescue & Fire Fighting Service. Local taxis, hire cars, hotels and trains to London are available. The train and road journey times are listed elsewhere on this page. Wycombe Air Park is an historic, small but friendly and professional airfield with great access to road and rail links.

ATKINS

This brochure has been compiled and designed by Atkins on behalf of the Department of Transport.

Atkins is one of the world's leading engineering and design consultancies, and has been supporting the Department for Transport (DfT) with its development of an aviation strategy for London and the South East of England for the summer of 2012 when London hosts the Olympic Games and Paralympic Games.
